

## **GULF COUNTY, FLORIDA**

**REQUEST FOR QUALIFICATIONS RFQ# \_\_\_\_\_**

### **LANDFILL OPERATION, MANAGEMENT, MAINTENANCE AND POTENTIAL ACQUISITION**

Gulf County Florida solicits qualifications for firms/contractors having the capabilities to operate, manage, maintain and close the existing 33.84 acre Five Points Class III Landfill per Florida rules, statues and the existing permit. Each submittal will be evaluated of the following criteria: Submittals should also include firms/contractors experience/capabilities to pick up residential road side yard debris.

#### **Financial Stability and Strength**

Each firm will be evaluated for its overall financial strength as an indication of its ability to establish and meet operational guarantees and maintain a financially-sound, efficient solid waste disposal facility.

#### **Landfill Management Experience**

Each firm will be evaluated for its demonstrated experience in the management, operation, maintenance and closure of solid waste landfills. The County will give particular attention to the performance data provided under this section.

#### **Project Approach**

Each firm's technical approach will be evaluated for its effectiveness in meeting the needs of the county, including an overall strategy for the management, operation, maintenance and closure of the Gulf County Five Points Class III Landfill.
